New York Life Insurance Co., arrived home from a trip to the Pacific Coast October 5, after an extended journey lasting for 35 days. He went west to attend the annual conference and banquet of his company, held this year at the Del Monte Hotel, at Monterey, Cal. Four days were spent in discussing business and receiving instruction and advice from men in their own class, the main features of the discussion being tales of successful methods employed in individual cases.

The company bears the expense of its agents given credentials to the convention. To secure these credentials one must write \$200,000 of insurance within a year; 726 out of upwards of 5000 having qualified.

Mr. Randall made the most of his opportunity and took several side trips at his own expense. He stopped at bat hettie Johnson, whose place of residence is unknown, is hereby notlined that better Johnson has filed her petition for divorce against him on the grounds of extreme crueity, in the Common Pleas Court of Medina County, Oblo, and that said cause will be for hearing on or after the 25th day of October, 1919,

On one of his side trips he visited was a Medina boy, a graduate of Medina high, and grew the largest crop lemons and raisins.

From Frisco Mr. Randall went overanything approaching an epidemic land to Portland, making the picturesque trip over the mountains. At Santa Monica Mr. Randall ran across A. W. Mallery, another Medina High graduate, a lad reared west of this city. He has lived there for 11 years and is an officer on the Santa Monica police force.

Mr. Randall reports that he had the most enjoyable trip of his life, and he feels that he has renewed his pep for a good, hustling next twelve months.
